

JOB DESCRIPTION: FLAVOUR APPLICATION TECHNOLOGIST

Company: Sensory FX (Pty) Ltd
Location: Pretoria
Contract Type: Full time, permanent
Industry: Chemical Manufacturing

About us:

Sensory FX is a trailblazing developer and manufacturer of flavours and fragrances for a broad range of products – from food and beverages to household and personal care. As an industry pioneer in sub-Saharan Africa, we're known far and wide for our excellent service and high-quality products. Over the years, we're proud to have helped create and define some of the continent's best-loved brands. This is due to the fact that we don't just understand the science of fragrance and flavour, but the psychology behind it too – which allows us to craft uniquely appealing tastes and scents.

Purpose of position:

To develop and optimise finished product recipes and applications, provide technical support and samples to customers while also leading finished product innovation projects in categories including confectionery and beverage.

Roles and responsibilities:

- Establish finished product recipes & samples.
- Answer selection briefs.
- Provide technical direction during finished product development and specification.
- Provide customers with product samples according to specification.
- Lead proactive projects and assist in development projects to expand and enhance the current product range.
- Create and improve on finished product application recipes.
- Extend and maintain flavour application formulations.
- Supervise the maintenance of the sample room and sample register.

Requirements & Skills:

- BSc degree.
- Customer oriented.
- Strong interpersonal skills.
- Commercial acumen.
- At least 5 years' experience in flavour application.

If you are interested in this position and have the necessary skills and abilities, email your CV to danie@sensoryfx.co.za.
